

BEST PRACTICES 2018-2019

WOMEN EMPOWERMENT

Sixty-three percent of students admitted to the institution are girls. As such, women empowerment programmes are of great significance. The Women Development Cell of the institution is very active and has conducted several programmes to sensitize both boys and girls about the importance of women Empowerment. Numerous lectures were organized on the topics of Women's Law, Soft Skills, Cybercrimes etc. Competitions for girls were held in collaboration with National Women's Commission. The basic amenities for girl students in the institution have improved considerably. The number of toilets has increased from four to twenty. There are three hostels for girls. Eighty percent of the research scholars are girls. The girl students participate actively in NSS, NCC, sports and cultural events. Girls were in the forefront of administration as well and many key posts in the student's union too. Girls were also in the forefront of all initiatives undertaken for flood relief measures as well. It was decided to re-start the self defense classes for girls.

SWACHH CAMPUS – GREEN CAMPUS

The Department of Botany maintains a herbal garden in the campus. Regular cleaning of Campus carried out by Students as part of the CSS Program. The Nature Club of the College has organized tree plantation. Old practice of burning wastes had been stopped. The non-degradable wastes are regularly collected by local agencies for recycling. Harmful chemical wastes from the Chemistry Laboratory which has been collected in tanks so that the chemicals do not come into contact with outer environment. The chemicals are to be then neutralized and discarded. E-waste is to be kept in a separate space within the College and discarded regularly. College has conducted awareness programs on global warming, ozone depletion, and carbon neutral campus.
